## Prayer Report

June 2010

Greetings to everyone in Jesus Name. I pray this finds you well. There are certainly a lot of things happening in the governmental realm so I will highlight some of these things as targets for prayer. A couple of weeks ago a man and wife from South Africa joined Floy Law and a few intercessors at the Capitol during a Tuesday noon prayer meeting. Below is a prophetic word that this brother from South Africa released while there and it bore witness with us that this word was consistent with what we know to be the mind of God for our state.

This is probably the most important room in this whole Capitol building; where men and women of God take the governing responsibility. The Kingly anointing. They begin to take charge in the heavenlies and they bring colonization of this Capitol Hill under the power of Jesus Christ. The Kings authority, and that's what you're doing.

I really believe that you're going to see some tables overturned in the next six months. There's a journey that God is taking this place on and there's going to be some exposure, negative exposure toward **corruption** and hidden agendas.

These catastrophes' that are taking place on your coast are going to be the cause of the uncovering of the wrongdoings and the disorder. God says: I'm not a God of disorder. I'm bringing the order of my Kingdom to this place says the Lord. There will be an exposing. You've been praying and we thank you for that. I believe God is going to turn something around here that is very, very sovereign. I see there'll be shifting and exposing of some sexual sins says the Lord and **corruption** of dealings that will be the bigger thing. Dealings bring about power and misuse of finances. Exposure will bring current stuff to the surface. God is going to clean it up. Just as the oil is on the surface and has to be cleaned up. God says there is going to be a cleaning up and when we pray and stand in authority, God brings order to them and exposes the sin. In Jesus name.

After this word, this brother's wife sang a song. It was a beautiful declaration over Louisiana's Government. "RIGHTEOUSNESS SHALL PREVAIL!"

I was thankful for a couple of things concerning this word that we can pray about:

- 1) God is still confirming that He is carrying out the "sentence of death on the spirit of corruption" that He spoke over our state back in 2005-06. When people come from another country and God has them speak a confirmation like that we should all understand that God is calling us to "stand firm in faith" that He will bring this corruption to an end in Louisiana. This also fits with what we have been sensing should be our posture before God concerning corruption exposed. **We see the revealing of corruption as a good thing not just evidence of what is here.** We know and understand that God must expose some things in order to eliminate them – either through repentance or removal of those who are corrupt.

2) With so many “words” flying around about the oil spill I was thankful that God touched on this very important subject for us through this brother from South Africa. The comparison of the exposing of corruption and the oil on the surface gives us some real direction in prayer. I will break this down as best I can to give a big picture view of this.

A) This spill is taking place in Federal Waters where our state government has no jurisdiction. Louisiana cannot issue permits, regulate, etc. past 3 miles out into the Gulf of Mexico. The spiritual significance of this fact cannot be overstated. This is a “national” issue not a Louisiana issue at its foundation. That can be seen by the affect this spill may have. While our coast is getting hammered by this oil, other states and in fact the whole nation will be affected by this spill. The oil is affecting not only the Gulf Coast but could go up the east coast. We pray not!

B) Hurricanes Katrina, Gustav and countless other disasters have taken place in our country because of our stand toward Israel and I am putting this into the same category. The examples are so many and so precise that books have been written documenting these occurrences. Our President and his administration is continuing the pattern of the last 4 Presidents in departing from our commitment to Israel. I could site many examples but this is the one we must see. When you support people who want to wipe Israel from the face of the earth you are contending with God on the very foundation of Israel’s right to exist. A politician can say Israel has a right to exist but if you support those who wish to destroy them you are talking out of both sides of your mouth.

This administration has taking this pattern to a whole new level. As you all know the Word of God is very clear about what happens to those who choose to set themselves up against God’s Chosen People. Our country is reaping what this position toward Israel brings you and we as a state within these United States of America are getting some of the consequences. Our nation is departing in so many ways from the precepts of God that I know this is not the only significant spiritual issue but it is certainly a large one.

Here are some prayer points I think are important to press into concerning Louisiana’s Government at this time:

- 1) We must believe God will do what He said He will do in our state and not waver in our faith at this crucial time. Concerning corruption, Louisiana being a “Light and Voice” to the nation, etc. etc. we say,  
“WE BELIEVE!”
- 2) We must continue to ask God for His protection for our whole state and especially our coastline right now. Many have been calling out to God for “witty inventions” to come forth. Last night I learned of some technology that Kevin Costner has been involved in that can filter 200 gallons / minute of oil & water mixture. The oil is kept and 99% pure water is then released back. This could be one of those things we have prayed for that could significantly help deal with this oil.
- 3) We must continue to call forth the exposure of corruption at every level – national, state and local governments, oil companies, environmental groups, judiciary....wherever it is pray for it to be exposed.
- 4) Pray that all “unholy alliances” be broken and not able to re-connect.
- 5) Pray for our government officials to be free from a “political spirit” that does not foster a servant’s heart.
- 6) As the legislative session comes to a close continue to pray for God’s purposes to be ESTABLISHED in Louisiana through our legislators. The more that our laws agree with the heart and mind of God the more God can bless and the gate is closed to the enemy of the will of God.

I will leave you with this. There was a real focus on the children at our June State Capitol Prayer Meeting. These things God is and will do in our state will affect the generation coming after us the most. God showed us that the things being established now would allow the children to be more secure, better parents when they grow older, move in the supernatural power of God more freely and hear God’s Voice more clearly.

Maybe this is a part of what was spoken in Malachi 4:6 - “And He will turn the hearts of the fathers to the children and the hearts of the children to their fathers.”

Till HE Comes,  
Todd Trahan
